

Reverse 911 System

La Plata County's emergency notification system (commonly referred to as "Reverse 9-1-1") now includes cell phones and VoIP (Voice over Internet Protocol). If you live in La Plata County, you may now register up to five cell or Internet phone numbers with your physical street address, ensuring that you get emergency notifications even when you're not at home or don't have a land line. FCR residents should register their phones with La Plata County's emergency notification ("Reverse 911") system. You can do this at:
