

Falls Creek Ranch Lake (Turner Reservoir)

Our 40-acre lake at FCR is one of our greatest assets. Our lake is private property for the exclusive use of Ranch members and their guests only. It is fed by Falls Creek which originates in the mountains high above the Ranch. Members and their guests enjoy year-round use of the lake including swimming, fishing, non-motorized boating, paddle-boarding, ice-skating, cross-country skiing, snowshoeing and just relaxing on the sand beach. The lake is periodically stocked with fish by our Lake Committee.

Our Lake Committee oversees the use and management of the lake. As an in-channel reservoir fed by Falls Creek, the lake includes water rights of downstream users managed by the Association.
